

# Resources like this certainly give the creative teacher more scope.

*Ink Pellet*

Revolutionise the way your students engage with literature by setting the stage in your classroom using simple audio technology.

SmartPass Teacher resources combine the powerful audio of **SmartPass** with a **Teacher** Pack of study materials presented as pdf files to print, view on screen, or project for the class.

Unabridged plays are presented as full-cast audio dramas *twice* – giving you the option to present the text with or without guidance, and full read-along scripts are provided too.

The guiding commentary explains difficult language, explores history and social history, demonstrates critical thinking skills, and models debate.

Created by teachers and performers from the Royal Shakespeare Company, the BBC radio repertory and the National Theatre.
